

Fall Clean Up Day 2008

The clean-up day on Nov. 1 was a big success thanks to the many volunteers who participated. While we had a smaller crowd turn out than our spring clean-up day, the volunteers covered nearly as many miles and picked up almost as many bags of trash as before.

Rico Rd didn't need serving this time, according to Adopt-a-Mile chair Molcie Trimble, because volunteers had been diligent about keeping that road clean. "This gave us a chance to focus on Campbellton Redwine, from Hutcheson Ferry to the South Fulton Parkway," Molcie said. In that area alone, volunteers picked up nearly 50 bags of trash.

Here are the results of the Nov. 1 clean-up day as compared to the clean-up day earlier this spring:

Clean-Up Day Statistics	May 31	Nov 1
Number of miles serviced	25.5	23.18
Total number of bags collects	276	265
- Number of garbage bags	136	154
- Number recyclable bags	140	111
Number of volunteers	100	52
Number of hot dogs consumed	100	60

The Chattahoochee Hills Clean-Up Day is organized by the Civic Association's Adopt-a-Mile committee and sponsored by Cardinal Sanitation.
